June 10<sup>th</sup> 2008

## **Australian Winter Sports Camps on hold for the 2008/09 overseas training programs**

Australian Winter Sports Camps (AWSC), Australia's longest running and most successful overseas training programs will not be operating their popular youth, junior or adult programs during this coming 2008/09 northern hemisphere winter.

After 16 years of continuous operation, owner and national programs manager Stuart Aldred has made the difficult decision to put the programs on hold for the 08/09 winter with full intention of returning with a new and improved program the following year.

Stuart Aldred commented "AWSC has been a major contributor to the Australian snowsports industry for the past 16 years with over 650 Australian skiers and boarders taking part in our programs. I'm incredibly proud of the product and service we've offered and am thankful to all the staff, participants, families and sponsors who have supported AWSC and made it the success that it is. I look forward to the 2009 northern hemisphere winter when we will return with an even better program to offer the Australian snowsports industry."

For further information on AWSC please contact Stuart Aldred on [stuart@awsc.com.au](mailto:stuart@awsc.com.au)

The **Interschools Canada** programs that are located at both Silver Star and Big White in British Columbia Canada will continue to operate during January 2009 and are now accepting applications. This customized on-snow training option designed specifically for Australian interschool skiers and snowboarders and their families has added an additional training week this year to offer even more options for family overseas snow holidays. More information on these exciting programs can be found at [interschoolscanada.com.au](http://interschoolscanada.com.au)
